Communities in Bloom Alberta

Communities in Bloom Alberta is a volunteer based, non-profit Alberta organization, under the umbrella of the national Communities in Bloom. We are committed to fostering civic pride, environmental responsibility, and beautification through community participation.

Communities in Bloom promotes involvement and action by citizens of all ages, the municipal government, local organizations, and businesses. The program strives to improve the appearance, and visual appeal of Canada's communities, parks, open spaces, and streets through the imaginative use of flowers, plants, and trees.

A focus on environmental action and natural and cultural heritage conservation is an integral part of its success, resulting in improved quality of life. Above all, Communities in Bloom Alberta is a community-development program.

Every summer, volunteer judges travel across Alberta to evaluate participating member communities on six key criteria:

- Community Appearance
- Environmental Action
- Heritage Conservation
- Tree Management
- Landscape
- Plant and Floral Displays

The principle of community involvement is so fundamental to the program that it is evaluated in each of the above criteria.
